

Feature	Assigned to	Importance? (1-5)	Additional Notes
Nice mobile web interface	Annie	2	things to consider: a new interface, or just re-scale the same thing?
Different types of graph displays	Annie	3	
UI tweaks	Annie		
LaTeX	Casey	1	I think this will be easy, eg <a href="http://www.mathjax.org/demos/tex-samples/">http://www.mathjax.org/demos/tex-samples/</a> ; if we're doing latex we either need to support editing questions or previewing questions, because people will make mistakes
Separation into lectures, attendance	Casey	1	
Case-insensitive, spaces	Casey	1	test this! and fix if necessary
Multiple Phone Numbers per course	Katie	1	
Show answered questions on student view (?)	Katie		
Gradebook-esque thing on student view, Student Analysis (students see how they're doing)	Katie	1	
Search for student and search for question	Qui	1	
Numerical Answers, w/ sig figs	Qui	1	show top ten in graph
Autocomplete for professors and classes	Qui	1	
Emoticons in texts	Shelf	5	
Comments in texts (i.e. "A blahblahblah") with nice display	Shelf	5	
Re-opening questions and comparing results	Shelf	3	We need to think about this.
Caching things?	Shelf	5	
Copying questions from other sections into your section. related: Adding tags to questions (#physics) so that they become publicly available to instructors who want to copy and use them (?)	Shelf	2	I think maybe when someone makes a question it should be automatically available to the instructors of all other sections?
